

# BASHAR V ISMAIL

Full Stack Developer | MERN Stack | React.js | Node.js | UAE Experience | REST APIs | CI/CD | Agile  
Palakkad, India | +91 9847014566 | [basharvismail@gmail.com](mailto:basharvismail@gmail.com) | [LinkedIn](#) | [GitHub](#)

## PROFESSIONAL SUMMARY

Full Stack Developer with over 4 years of experience, including 1 year of hands-on development in Dubai, UAE. Skilled in building end-to-end web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), with additional expertise in technologies such as Next.js, NestJS, and Docker. Proven track record in developing scalable backend services, responsive frontend interfaces, and secure RESTful APIs. Experienced in deploying SaaS platforms, logistics systems, and AI-integrated tools with features such as role-based access, Stripe payment integration, and admin dashboards. Strong understanding of authentication protocols, microservices, and CI/CD pipelines. Comfortable working in Agile environments and capable of handling the full software development lifecycle.

## TECHNICAL SKILLS

- Frontend Technologies:** React.js, Next.js, Astro.js, Redux, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Webpack
- Backend & API Development:** Node.js, Express.js, NestJS, Fastify, MongoDB, Mongoose, SQL, RESTful APIs, JWT, Microservices
- CMS & E-commerce Platforms:** WordPress, Shopify
- Tools & DevOps:** Git, GitHub, GitLab, Docker, CI/CD, Postman, Stripe API, Jira, VS Code, Agile methodologies
- Testing & Optimization:** E2E Testing, Unit Testing (Jest), SEO Optimization, Performance Tuning, Cross-Browser Compatibility

## CORE COMPETENCIES

- Full Stack Development (MERN Stack)
- RESTful API Design & Microservices Architecture
- Admin Dashboards & SaaS Platform Development
- JWT Authentication & Stripe Integration
- SEO Optimization & Responsive Web Design
- Agile/Scrum Methodologies & CI/CD Pipelines
- Booking Systems, Cross-Browser Compatibility
- Docker & Git-based Version Control (GitHub, GitLab)

## PROFESSIONAL EXPERIENCE

### SOFTWARE ENGINEER

July 2024 - Sept 2025

#### BAGGAGETAXI FZ-LLC - DUBAI, UAE

- Developed and deployed a high-performance booking platform using Next.js and Astro.js, serving over 10,000 active users, optimized for SEO, mobile responsiveness, and cross-browser compatibility.
- Led the design and implementation of scalable backend microservices with NestJS, MongoDB, and JWT authentication, enabling secure booking management, real-time dispatch scheduling, and revenue tracking.
- Collaborated in an Agile environment, participating in daily stand-ups, sprint planning, and retrospectives, and working closely with product owners, designers, and QA to meet sprint deliverables.
- Integrated CI/CD pipelines to automate testing and deployment processes, reducing release times and eliminating manual errors.
- Executed thorough end-to-end (E2E) testing using Postman, Jest, and manual test cases to ensure application reliability, data integrity, and high-quality production releases.

### FULL STACK DEVELOPER

January 2024 - April 2024

#### FREELANCE - REMOTE

- Successfully delivered multiple freelance projects including AI-powered web tools, admin dashboards, and Stripe-integrated SaaS platforms, ensuring high performance, scalability, and user-centric design.
- Developed dynamic, custom dashboards using React.js, and implemented secure, RESTful backend services with Node.js and Express.js.
- Integrated OpenAI APIs for content generation, chat automation, and smart search capabilities, significantly enhancing user interaction and reducing manual workload.
- Built robust Stripe integrations for payment processing, subscription billing, and automated invoice generation, enabling seamless monetization for client platforms.
- Deployed applications using Docker containers and implemented CI/CD pipelines with GitHub Actions, streamlining delivery workflows and ensuring rapid, reliable updates.

- Designed and developed ManageBee, a scalable SaaS platform for end-to-end property inspection and management, streamlining workflows for property managers and field staff.
- Delivered full-stack features including interactive user dashboards, dynamic inspection forms, automated PDF reporting, and real-time email notifications, enhancing operational efficiency.
- Integrated Stripe for seamless billing and subscription management, and implemented role-based access control (RBAC) to securely manage permissions for admins, staff, and clients.
- Optimized backend API performance, achieving a 40% reduction in data processing time through advanced query optimization and caching strategies.
- Collaborated with QA engineers to ensure product stability, conducting comprehensive unit and integration testing using Postman and Jest.

## **PROJECTS**

---

### **ManageBee – SaaS Platform for Property Inspections**

**A subscription-based web platform for property inspection and reporting.**

- Role: Built the full stack application including frontend UI, backend services, admin dashboard, and PDF report generation.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, Stripe API, Tailwind CSS
- Impact: Enabled inspection firms to manage inspections digitally and process payments automatically via Stripe.

### **AI Content Generator – Freelance Project**

**AI-powered tool for generating SEO-optimized blog content using OpenAI.**

- Role: Developed UI, integrated OpenAI API, implemented user authentication and content tracking system.
- Tech Stack: React.js, Node.js, OpenAI API, MongoDB, JWT, Docker
- Impact: Reduced content generation time by 80% for small businesses.

### **BaggageTAXI Booking Platform – Logistics Startup (UAE)**

**End-to-end platform for customer bookings, dispatch assignment, and admin operations.**

- Role: Led full stack development and deployment; built booking workflows, backend APIs, and admin control panel.
- Tech Stack: Next.js, NestJS, MongoDB, GitHub Actions, Docker
- Impact: Handled 7,000+ user transactions; improved operational efficiency with real-time dashboards.

---

## **PROFESSIONAL QUALIFICATION**

### **Bachelor of Engineering – Mechanical**

Anna University, Chennai, India | 2012–2016

---

## **CERTIFICATIONS**

**JavaScript – Advanced Concepts**, Udemy, 2022

**Web Application Development with HTML, CSS & JavaScript**, Udemy, 2022

**Back-End Development with Node.js**, Udemy, 2022

---

## **AVAILABILITY**

- Current Location: Kerala, India
- Notice Period: Available for Immediate Joining
- Preferred Roles: Full Stack Developer, Backend Developer, Node.js Developer, React.js Developer
